Note From the Editor

Life in Northeast is always changing and growing. The amount of change is amazing and the thriving local businesses contribute to the uniqueness in Logan. I like that being from Northeast means something, people recognize the area as a pleasant place, an area to explore new things and also relax. Residents like living in the quaint artsy area because of the aesthetic and the friendly camaraderie between neighbors and newcomers.

On a beautiful sunny evening, my parents wave from their porches at neighbors walking their dogs and greet passerby's. The pair proudly accent their bright Scandinavian home close to the Casket Arts building and bring a warmth to the block. I like that being from Northeast means that neighbors share beer kegs at Christmas and that neighbors mow each other's lawns and shovel the sidewalks. I like that we look out for each other's property and like our parks clean. Being from Northeast means knowing spring is here with the lilacs bloom and that the three day art festival is a really long weekend of love.
