Environment

Lights = safety for our kids and families

Solar lights

Solar lights [underlined]

Solar panels on street lights

Lights and solar lights

More residential lighting for safety

Turn off lights when not needed! ... Concerning my choice for #1: the flood lights in Logan stay on till late every night for no observable reason. It's a huge waste, the idea of solar is ridiculous if we continue in this fashion

Finance programs or connection to solar vendors

Affordable solar for residents (grants? Loans?)

Raingardens volunteer effort, no NRP \$! Solar – maybe someday

Residential solar

solar panels for residents (a collective group)

I've been hoping for a grant to make solar panels/solar power actually affordable. I'd love to be able to put some electricity back into the grid instead of using xcel/center point. Futures crossed that it happens?

Neighborhood plant swap

Raingardens volunteer effort, no NRP \$! Solar – maybe someday

Rain gardens [underlined]

Promote environmental health – less spraying of pesticides, help prevent polluting runoff in storm sewer

Plants and Bees

Promote bee health

neighborhood plant plants for pollinators, have classes on how to

Work with CEE to provide grants that will lesson our impact on the environment.

Rain gutters, bee hives, flowers, fruit trees, etc

Dog walkers – I'm tired of dogs pooping on my lawn and peeing on my snow. Enforce this issue. Also: outdoor burning in firepits – smoke pollution // and neighbors who use fragrant dryer sheets – ban them (the scented dryer sheets, not the neighbors)

Assist the city's effort for fall clean up of streets and alleys. They are inadequate. Logan park neighborhood was swept before all the leaves come down. 2017 Alley drains down the middle of the alley, are never swept. Sweep yours out, you will be surprised what you find

Mission Statement should show concern for a healthy environment esp given that global climate change is the #1 concern at this time. Think Global act local.

But how about cleaning the trash we sometimes collect?

Other Environment

Let's build the first Twin Cities indoor vertical farming complex, perhaps low-income rent for housing units could be partly a barter system with framing labor exchanged for rent

\$ for turf alternatives in yards, bigger recycling bins or more frequent pick-up

At most basic level is an organism's environment Thank Maslow's Hierarchy of needs. We need a healthy environment to thrive and move on to next levels of actualization. Socail, architecture, arts,. SO I suggest a healthy environment is the most basic need. It should be in our mission statement. Think global, act local. Ex: Stenciling of street drains. Keeps excess nutrients and garbage out of the driver. This past year was the largest dead zone in Mississippi Delta, Gulf of Mexico. Acting local with an eye to protecting gulf would be not raking leaves into the street.

Waterbottle refill stations added to water fountains

Park Related Projects

Dog park in Logan Park [not sure if park or neighborhood]

... or maybe a small off-leash dog area [by Edison high school?]

Dog park

dog park

Workout equipment (circled)

Workout equipment only

Workout equipment (circled) – YES!

Workout equipment

pullup bar at the park A local, public or affordable community gym would be amazing outdoor, public circuit-training equipment (eg pull-up bar) around Logan Park	workout equipment
Longer ice rink hours and longer season Open skating are of ice rink is far too small. Use the burns already there and flood the whole ball field. You won't need to haul dirt in and out every year and the rink will draw more people	Ice rink related
Movies in the park Outdoor musical instruments (see Freenotes Harmony Park) Concerts in Logan Park / Live music Concerts/events in the park Community theater in the summer Music programming, how do we make our parks "hang out places" like they are in other cities like San Francisco, for example.	Movies/Music/Theater park programming
young families, preteen and teen activities My #1 and #2 priorities are very close. When I mean park relate projects, I'm mostly focused on youth/adult programming and not so much infrastructure, though that could use some love too. include outdoor activities other than sports	Activities for kids/teens
Long term assets like parks can keep kids out of trouble while they have a safe space to build positive community. Splash pads would be a great addition that connects people of all diversity and connects generations of all ages, incomes, ethnicities, and gender	
Put a community garden in the knoll by Edison high school More community gardens would be nice Community garden – flowers!... Many times when I bring up plants, they get thrown. Maybe make Logan Park prettier with more flowers. Or have a plant exchange.	Gardens
add updates inside and out, safe structured park benches free parking at parks, maintaining the parks. No extra projects as the ones listed above Kids pool improvements that have been delayed Air pumps, tube/or vending? (for tires) Volunteer efforts, not NRP \$! Improvements to tennis courts in Logan Park expand playground excellent way to get lots of involvement Fresh sand! More trees! Outside play things ie, balls, buckets make it inclusive for all ages intuitively placed walking paths intentional quiet areas solar panels on the park building roof	Other park-related

Senior Issues	
Home audits (a lot of the older houses have stairs) age in place classes – how to stay in your house at any age Only if the audits are voluntary	Aging in place
Volunteer organization to help with needs How can we make our sidewalks friendlier in the winter?	
Neighborhood nurse service, neighborhood reduced rates on everything, everywhere for 65+ age. Logan Park could be 1 st prototype for such a program Security gardens Be nice to have our own neighborhood volunteers to help seniors, sick, low income with things like home repairs	

Organize some of the neighborhood youth to do "storycorp" style interviews with local elders

Nutrition info

Landscape/patio redesign/improvements to Holland High Rise

I'm interested in this.. but not sure what?

senior achieves based on jr. achievement models

Arts and Culture

Utility box wraps

Logan park signage

Keep Marshall historic and arts-friendly, no more high-rises

Volunteer effort

Artist studios and housing have to be a major priority – we need artists living and working in Northeast – they put us on the map as a nation hub for the arts

Mural under Monroe railroad bridge; paint the pavement

Help artist by funding projects/classes in their studio

Well, it's the NE Arts District after all... Forecast is an awesome Public Arts non-profit in St. Paul they could certainly help with this area...

history classes, art/culture call for projects to enhance the neighborhood

artistic: lights, sculptures, outdoor furniture, trash cans, & signs

Art to cover utility boxes.

Housing

Loan programs and grants are A+ glad to see they are available

NRP money [for housing] was great

Improving housing stock

We've used the home improvement low interest loans and really liked that opportunity. I'd love for my neighbors to be literally invested in our neighborhood.

Loan programs for owners

Some kind of incentive for home owners to fix up the exterior of their homes.

Like get rid of old siding.

Maintenance loans, volunteers for elderly

Affordable housing for 50 + up

Affordable housing for refugees, not u.s. citizens, vets, [is] not fair. Housing lists now have 8 years waiting list... People are displaced, scared ...

Affordable housing for youth (20-39 yr olds) that may be struggling with the recession issues, health and family problems. A lot [of] people I hear about like this become, or are homeless, squished together, sleeping on couches, they cannot afford \$1000 mo. rent for cubicle studio space. It's sad. We can house immigration, yes, thanks, but US citizens are suffering now too. Please help. Need more dental help but HOUSING MOSTLY (mins houses, habitate for humanity) Our people here our citizens and vets.

Affordable-housing related

Affordable housing investment (circled)

No one should be homeless

We must further diversity our neighborhood to keep it vibrant and welcoming.

Rising home prices and rent threaten this.

"Affordable housing" is often spoken of as \$950.00 per month rent. For elderly on SS bringing in \$1200.00 per month, that has to be cut in half in order for them to be able to pay for medicine, food, transportation, utilities, any extras, [?]

No more high rises. No taking peoples' homes. Medium density housing.

No more low income housing please

Rent (and tax) ceilings

If we are taxed out of our homes, there is nowhere for us to go!

Is there any vacant/badly used land in NE Mpls? Manufactured housing s/b investigated. Logan Park could elicit cooperation of other NE neighborhoods to be the mavericks in this endeavor

If NE put all our money together, perhaps we could build something for all of us to benefit from. Demolish what used to be Northrup King and build a senior living center (not tenements) the likes of which has not been seen. Galleries can locate in small spots (quantity) anywhere, whereas seniors are fast approaching 60% of the population. Somebody have some guts and vision. Improve leaders

Other Housing

Housing is getting too expensive

Maybe not your area, but Mpls Public Housing Authority Really needs more buildings

Focus on renters and rental housing; emergency rental support (circled)

More [housing] shelters

matching grants, home repair classes with tool library, home repairs

absentee landlords are a problem

what about those of us already here and stable and what about homeowners not renters? I've rented a ton and know I never got involved until I owned.

Infrastructure

Make Broadway one lane each way with bike lanes. This road has become aggressively dangerous. Slow down the speed.

Broadway is very dangerous walking, driving, biking, This needs to be first priority... please do something about the dangerous traffic on Broadway

Broadway calming

Broadway Issues

More bike-friendly routes, especially along Broadway!

Collaborate with other neighborhoods abutting Broadway to demand traffic calming for safety on Broadway Street. It's a street not a freeway

Protected bike lanes, improved walkability

Safer bike and pedestrian crossings

More walking areas around the neighborhood

Bike boulevards

I would like more bike areas, maybe something that connects to Boom Island

More bike-pedestrian paths and a current map of same

Bump-outs @ intersections, zebra crossings, traffic calming, dedicated bike lanes wherever possible

Artful crosswalks or paint the pavement!

Make Quincy St. from Broadway – indeed brewing a pedestrian only street

Bike and walk

I LOVE to bike and walk with my 2 small children, it's one of the reasons we live in this neighborhood – more cleaner improved sidewalks and bikelanes encourage everyone to get out of their cars

Close the street to cars between University and 4th St. NE on 13th. Let all of those businesses occupy more of the street space and add other pedestrian and bike-friendly places to hang out – maybe a semi-permanent tent all winter with a nightly bonfire

Pay attention to sidewalk safety and accessibility

I would like to see some money spent on very minor pedestrian and bike connections that are overlooked the city - identify and fill in desire paths

Year-round safe-sidewalks: ~this is in our Mission Statement for a walkable & connected neighborhood

Resident parking permits for high traffic areas

Parking available for new infrastructure being built

Permit parking for residents in congested areas

Permit parking

Our founders/community builders were wise in realizing citizens should be able to park in front of their houses to load and unload everything. To destroy this ... for a some-time used bike path is a disgrace and cruel, shameful!!! **
[continued] This practice is ruining our lives where we live, and life is hard enough already

we need to do a better job of removing snow and ice
shovel the sidewalks
Public sidewalk snow removal especially on 13th.

Snow removal

Neighborhood-wide sidewalk snow clearance. Icy sidewalks are a huge problem for everyone. Program could include paying local residents to shovel sidewalks in front of seniors' homes or people with disabilities or single parents, or anyone that needs help. Or could be everywhere a pilot for something the city is considering. We could also contract with a snow removal company
Shovel access to park benches in winter, and sweep them off. A place to sit for a minute while out on a winter walk would be nice

No more roundabouts. No idea if any are in the works but there one on 17th is terrible and unnecessary

No, too much traffic problems with the bike lanes
Traffic flow

Traffic issues

But what about cars? Is there no place in our neighborhood for cars?

Better lighting by the Indeed Brewery. I was driving to Northrup King Bldg, west on 15th, and a man from a group was pounding on my car, a train stopped me and he came to my window SCARY

Alleys: keep them clean & well lit

Install more street lights to impede crime

have better lighting and art under railroad bridges on Monroe

Better lighting between central ave and washington ave. on broadway to provide greater after dark pedestrian safety

Lighting

Most of Logan Park has street lamps instead of wooden poles – Not sure if LP has it, but it could be a cool thing to have every street have it and use it as our "signature" or in a logo

Fix pot holes and road + bridge maintenance

No apartment buildings in neighborhoods. Don't let outside developers take over.

water, bathrooms, etc. for runners

[infrastructure] is a high priority but it has been getting a lot of "attention" already for the past few years

Bring the other 17 all the way NE. The transfer point articulation is terrible on this "half-hour" segment. GPS has not improved connections

restaurants, retail space too

street parking calming, alley speed reduced

Other Infrastructure

Graffiti removal: I'd like to see our neighborhood employ 2 people to remove/cover graffiti during the summer. It is a blight on our neighborhood. I think a neighborhood in S. Mpls (Lyndale West?) does this.

test for environmental particulates from traffic and its effect on our health.

plant gardens along the alleys & name the alley after a plant

paint garages

institute another "hands across the alley" event to meet neighbors while cleaning/planting the alley

Keep up or connect w/the next door logan park to report crime, report missing pets, etc.

Safety – what are thoughts on cameras at parks and higher crime areas?

Crime/safety – better patrols given recent break-ins in area

I think the most important priority is safety (other neighborhoods chip in for owners' safety improvements)

Police on bikes program, it is great in summer

Crime/safety

Thank you for all your work!

Thanks for having this in Spanish

Thanks

Thank you for your community involvement, without volunteers, very little good would get done

Lack of ice cream shops! - Margot, age 8

#1 Priority education

More trash bins and dog bag dispensers in neighborhood

There is a block nurse program? Where, when, what. Have never heard of one here.

More stuff for teenagers to do

Small businesses – keep the neighborhood interesting and diverse

Remove hatred, bigotry, and fascism from the neighborhood

Improve cultural relations

Find ways to put our neighbors of color and our local artists and small business owners at the center of these discussions. They are the soul of the neighborhood and their voices should be amplified. This is how we avoid becoming another uptown. No more high-rises unless they are provided accessibility to diverse populations

Only [parks] should have money spent on it. No more bike lanes, speed bumps, or curb outs. I see about 2 to 3 people a day riding bikes, yet there are bike lanes all over. All the bike lanes and curb outs do is cause traffic congestion

Host a food shelf

Get kids off streets – activities with food provided

Homeless outreach, maybe a counselor on site

Drugs: would you be open to hosting an NA or AA meeting?

Neighborhood meetups at coffee shop

Food and clothing drives

find a project to work on with a connected neighborhood such as sheridan. st. anthony east, holland, or ne park

make the small area plan of the neighborhood vision not just a document that never sees the light of day

[classes] buying a house what to do after the mortgage is paid off, a resource center of what is available in NE minneapolis and hennepin county

To be honest, the parentheses all seem to skew to a progressive social justice perspective I think is misplaced for our neighborhood association.

Misc

Celebrate achievements: have events/parties to recognize those who champion projects through completion, gifts would be great, invite the neighbors

Go to card for nice ride

Create incentives for rehabbing empty commercial buildings. Example, the storefront on University and 17th always has graffiti, we need a small corner store or workout facility, restaurant, anything to occupy that corner

Can you tell the police, ambulance, and fire dept to limit sirens late nights and early mornings through the neighborhoods?

Remove religion from politics

Remove Republicans from office

Higher wages

I Pay Duplex Taxes NOT single family home taxes
