SUMMER / FALL 2000

The State Fair is long gone, but there is still a big blue ribbon to be awarded yet, and it goes to the people of the Logan Park Neighborhood. The LPNA board and NRP committees want to recognize and thank you for your work. New roofs, paint and siding, cement work, repairs, and lots of flowers have made our neighborhood an even better place to live.

What's next? The next phase of the Neighborhood Revitalization Program (NRP) is starting to take shape, but we need to wrap up some of our first phase projects before we can apply for Phase 2. 90% of our original funds need to be spent or at least be 85% contracted for future spending, and we are not at that point. There will be discussions on the Problem Housing, Historic Lighting, Arts & Culture, and Small Business projects. We need to assess where we are at, and where we need to go. Voting on ammendments to our plan would take place at the October General Meeting. See inside for committee details. If you want more NRP \$\$\$ for the neighborhood, we need your input.

30 Day Notice of Intent to Modify NRP Plan Funds

At its October 18th membership meeting, Logan Park residents will have the opportunity to vote on proposed changes to the Logan Park NRP plan, which will change the funding allocated to various strategies included in the NRP plan. These changes will also be discussed at the September 20th (Wednesday) meeting.

The proposed changes are:

1. Reallocate \$40,000 from the strategy which was to redevelop vacant or problem properties. \$30,000 would be reallocated to the strategy which supports the low interest (4%) loan program for Logan Park homeowners. \$10,000 would be reallocated to the strategy which supports housing program administration and staff expenses.

Reasons: The private market place has been taking care of the vacant properties - they are being purchased and fixed up without public funds. There is increasing demand for the loan program. The \$10,000 would mostly support the new BIG grant program, leaving more BIG funds for grants.

Other NRP plan modifications being looked at, but needing more discussion, are:

2. Possible reallocation of the \$140,000 to install historic street lighting. These funds could go to a future housing program.

Reasons: The signature effort needed to approve the lighting has stalled and needs more volunteer support. There are also questions about the viability of the lighting on Washington and Monroe Streets due to the size of the boulevard. A new lighting initiative could begin with Phase 2.

3. Discussion of additional opportunities using the funding for Arts & Culture classes and festivals.
4. Discussion of possible establishment of an escrow account to contract for the \$30,000 designated for the proposed Northeast Community Center. This is for the capital campaign, not planning stages, and would go towards artspace within the center.
5. Discussion of Small Business Funds.

Thanks, Brush with Kindness!

Notice the signs on some of the newly painted houses in the neighborhood. We are partnered with the Habitat for Humanity sponsored "A Brush with Kindness" program, where volunteers from businesses and organizations paint homes for those in need. If you do business with an organization on a sign, mention it and say thanks. Also, thanks to Sandy Sample from our neighborhood and the good neighbors who worked on 1417 Monroe.

New at the Park

The Logan Park Community Center is offering a full roster of new activities for all ages, including: Tumbling; Free Saturday Story Hour (errand time for parents!); Free Earth Science Classes; Sports; Cooking; Homework Help; School Release Days; Field Trips; New Teen Activities; Friday Family Night at the Gym; Adult Crafts & Volleyball; and Seniors' Club. Parents, Grandparents Alert! The "No Shots, No School" rule by the Minneapolis Public Schools means your child cannot attend school this fall without up-to-date shot records. In the past, this has been a problem for some Northeast families. This year we have help for you. We can offer you free shots and records, help with rides, translators, and supervised creative play for your children at two locations near you. The Northeast Immunization Project Team made this possible for those who need it. If your child needs shots this fall, call the Hot Shot Line at 588-3003. For bus line information, call 373-3333.

Si su niño necesita vacunas este Otono, llame al Hot Shot Line al 588-3003 y para información sobre la linea de autobuses llama al 373-3333. Ambos ofrecen servicio de Español cuando usted lo solicita.

Get the Lead Out

Don't drink or cook with water that has been in your plumbing for more than six hours - overnight, for example, or while you were at work.

Let it run! You can clear the water out of your pipes by letting the cold water faucet run until you feel the water get colder - usually 30 to 60 seconds (hot water dissolves lead more quickly than cold water).

The water you clear from your faucet does not have to be wasted. You can use it for washing dishes or watering plants.

What is the Community Health Program?

Any resident of the Logan Park or St. Anthony East neighborhood is eligible to participate as a client and/or a volunteer.
